EDUCATION / CERTIFICATIONS

AWS Certified Developer – Associate, Amazon Web Services (AWS) *Achieved: February 2025*

Virginia Tech **Blacksburg, VA**

Bachelor of Science in Computer Science *Graduation Date: May 2026*

WORK EXPERIENCE

Capital One **Richmond, VA**

Software Engineer - Technology Development Program *Aug 2026 – Present*

- Engineered and deployed a production data ingestion migration from Amazon SQS to an internal enterprise API, reducing processing time by 10% while meeting Platinum application compliance requirements.
- Implemented feature flags for controlled rollout and rapid rollback, reducing deployment risk and supporting production stability.
- Coordinated with cross-functional engineering teams and product management to plan production deployment, validate API integrations using Bruno, and execute end-to-end testing.

Parsons Corporation **Herndon, VA**

Software Developer *May 2025 – July 2026*

- Designed and delivered a production-ready feature within an 8-person Agile team, leading cross-layer architecture and backend API integration.
- Modernized 60% of a legacy frontend codebase through modular architecture and reusable components, improving maintainability and extensibility.
- Implemented real-time socket communication and refactored backend models into DTOs, strengthening data consistency and service integration.

TECHNICAL PROJECTS

Kustu - Distributed Serverless Stock Analytics Platform

Founder & Software Engineer *June 2025 – Present*

- Architected a distributed, serverless financial analytics platform using AWS Lambda, API Gateway, Cognito, and PostgreSQL to support equity research and portfolio analytics across thousands of publicly traded companies.
- Engineered financial data ingestion pipelines integrating market data APIs and SEC EDGAR filings to compute 30+ financial metrics and persist structured analytics in PostgreSQL.
- Engineered a multi-layer caching architecture using DynamoDB and client-side caching, reducing end-to-end API response latency by 98% (10s to 200ms) while minimizing redundant data retrieval and AI inference costs.
- Owned end-to-end software development, from system architecture and REST API implementation to AWS deployment, CI/CD, production monitoring, and performance optimization.

LEADERSHIP

Ascend at Virginia Tech

Co-Founder, Treasurer and Project Manager *Nov 2024 – May 2026*

Filipino American Student Association

Web Developer and Project Manager *May 2023 – May 2026*

SKILLS

Languages: Java, Python, C#, JavaScript, SQL, TypeScript

Cloud & Infrastructure: AWS (Lambda, API Gateway, DynamoDB, Cognito, EC2), Docker, CI/CD

Frameworks & Databases: React, Node.js, Express, PostgreSQL, MySQL, MongoDB

Development Tools & Practices: Git, REST APIs, Spec-Driven Development, AI-Assisted Development
